

For Model: F5

型号	F5
额定电压	100-240V
额定功率	25W
额定频率	50/60Hz
水箱容量	3.5L
最大喷雾	200ML/h
操作方式	触屏/遥控
产品尺寸	186x186x298mm

Diagram of the front panel of the YL-1000A humidifier. Labels include: 水箱盖 (Water Tank Cover), 出雾口 (Mist Outlet), 温度显示 (Temperature Display), and 香薰槽 (Essence Slot).

1.电源接：电源接电源经保险丝接入电源板，液晶显示屏亮起来机器工作，再次轻触电源板加热器停止工作进入待机状态。

2.时间设定：本产品具有预置时间功能，可定时1小时，2小时至8小时(2小时定时为默认)，轻触时间设定开关时间，每次轻触时间显示屏显示相应的时间。

3.亮度调节：产品分为零亮度，低亮度，中亮度，高亮度档，亮度可调，每次轻触亮度调节键进行循环调整，产品出厂默认设置为最大亮度工作。

4.恒温控制：第一次按下该按键产品进入加热功能，液晶显示屏上“环境温度”亮起，默认湿度值为40%，80%后亮度增加至90%后亮度恒温控制，以该亮度循环，当前环境温度低于设定的温度值后再次启动。

5.灯光控制：开启后灯光光源为暖灯，按一下关闭键，再按一下关闭灯光。

6.睡眠模式：在产品出厂前出厂前默认睡眠键启动睡眠功能，智能睡眠模式，显示屏上显示5分钟后自动关闭显示器，产品保持待机的工作。按下任意功能按键点亮显示屏显示当前工作状态，在显示屏亮起状态下按任意功能键退出睡眠功能。

故障现象	原因分析	排除方法
屏幕无显示	电源未接通/开关未打开	接通电源/开关打开
开机显示屏内动红亮灯不熄灭	水位过低	添加水容量到适当位置 等待一分钟左右
开机正常无报警	1.雾化片被水垢 2.恒湿设置低于周边湿度	1.清洗雾化片 2.调高恒湿温度或恒湿功能
异常噪音	与放置的台面产生共振	放置在坚固平稳的平面上
屏幕显示：水幅有水，但是显示缺水状态（请检查水箱）	开关感应浮球被卡住	搬动浮子，让其上下活动顺畅

本表格依据 SJ/T11364 的规定编制

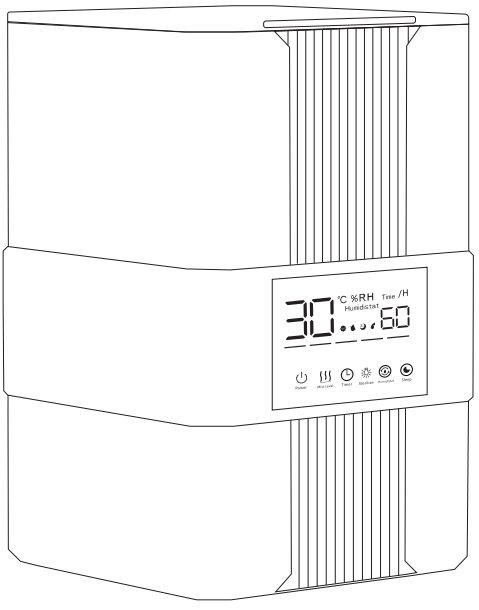

表中有毒物质在全部所用材料样品中含量均符合 GB/T 26572 规定限量要求以下。

K: 表示该部件中有害物质的含量，与材料中有害物质符合 GB/T26572 规定的限量要求。

注：在正常使用条件下，本产品中有害物质不含有害物质，不含有害物质。

在符合使用说明书的使用条件下，本产品的环保使用期限为 10 年。在环保使用期限内可以放心使用，超过使用期限之后应进入回收循环系统。

For Model: F5

Model NO	F5
Rated voltage	100-240v
Rated power	25W
Rated frequency	50/60Hz
Water tank Capacity	3.5L
Maximum Flow	300ML/h
Operate method	Touch/Remote control
Size	186x186x298mm

A line drawing of the Aromatherapy Box. It is a rectangular unit with a digital display on the front. The display shows '30.0°C' and '60%' with 'TEMPERATURE' and 'HUMIDITY' indicators. Below the display are several icons: a power button, a fan, a water drop, a flower, and a leaf. Labels with leader lines point to the 'WATER TANK COVER' at the top, the 'MIST OUTLET' on the right side, the 'TEMPERATURE HUMIDITY' display, and the 'AROMATHERAPY BOX' at the bottom.

1. Power key: after connecting the power, touch the power key, the LCD will stop working and the power key will turn on the power key again, the humidifier will stop working and enter the standby mode.
2. Timer key: this product has the function of appointment timing. It can be shutdown for 1 hour, 2 hours to 8 hours. Touch this key to set the shutdown time, and the corresponding time will be displayed on the display screen each time you press this key.
3. Mist level key: the product is divided into zero mist volume, low mist volume, medium mist volume and high mist volume. The mist volume can be adjusted. Press the humidifier mist volume key to adjust the cycle each time. The product starts up with the low mist volume.
4. Constant humidity key: press this key for the first time, the product will enter the constant humidity function, and the "ambient humidity" on the LCD will light up. The default humidity is 40%, and then press 5x to increase until 90% to exit the constant humidity function. Press this key again to stop working when the ambient humidity reaches the preset humidity value.
5. Flame Light: The light depends on warm light once turn on, press it switch to blue light, press again turn on turn off.
6. Sleep key: touch the key to start the sleep function on the product control panel. The intelligent constant humidity is 65%, and the display screen will automatically adjust the sleep time for 6 seconds. The product sleeps working in the original gear. Press any function key to light up the display screen to cancel the sleep function. Press the sleep key to start the sleep function again to enter the sleep function when the display screen is on.

1. Please do not plug the plug with wet hands to avoid the risk of electric shock.
2. Please do not disassemble, repair, or modify this product without authorization from the manufacturer.
3. When starting up, please do not touch the atomizing shell with your hands, otherwise it will make you feel painful.
4. The power cord must not be scratched, damaged, knotted, and do not press heavily objects or clamps, processing, otherwise it may cause electric shock, short circuit, and fire.
5. Please do not replace the power cord without authorization. If there is any abnormality, please unplug the plug immediately and contact the manufacturer or the nearest customer service.
6. If the power cord is damaged, in order to avoid danger, it must be repaired by professional personnel of the manufacturer.
7. Please do not separate the water tank and the base during work, and do not touch the water and parts in the tank.
8. This machine is for indoor use only.
9. Please unplug the power plug when it is not in use for a long time or during thunderstorms.
10. Please do not turn the machine over under the condition of power and water inside to avoid burning the internal electronic components.
11. Please do not let children reach the reach of children. Do not let children use or operate this product to avoid accidents.
12. Unplug the power plug when filling water and cleaning.

No display on the screen	connected and switch is not turned on	Press the power button on the switch
Flashing red light on display screen, no spray	Low water level	Add tank capacity to appropriate level and wait one minute
Power is on good, No spray	1. The atomizer solenoid 2. The constant humidity valve is not open from the surrounding humidity	1. Clean atomization sheet 2. Raise the constant humidity valve or disable the constant humidity function
Abnormal noise	Resonates with the counterjet	Place it on a solid and flat surface
The screen shows that there is water in the tank, but display/water shortage, and status "Iron alarm"	The machine recognizes that the tank is not full	Move the foot up and down smoothly

After the above trouble, the machine still can not work normally, please contact the company's after-sale service center or local dealers in time, our company will provide you with after-sale service.

Part name	Name and content of harmful substances in products					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Plastic housing	○	○	○	○	○	○
Blower fan	×	○	○	○	×	×
Circuit board	×	○	○	×	○	○

This table is prepared according to S/T 11364, which indicates that the content of the hazardous substance in all materials of the part is in the quantity specified in GB/T26572.  
The following x indicates that the main substance at least contains in the homogeneous material of the part, which is beyond the quantity specified in GB/T 26572.  
Note: in the products published in this table, there are gumax batteries which are not included in the quantity specified for replacement.

 Under the normal usage conditions described in this manual, the environmental protection service life of this product is 10 years.  
It can be used with confidence during the environmental protection service life, and after exceeding the environmental protection service life, it should enter the recycling system.

assumes the responsibility for repair. In principle, the users of the product during the warranty period do not need to pay fees, but due to human damage, the cost of testing or spare parts shall be charged as appropriate. Products beyond the warranty period will be charged.

wear and tear of appearance, falling damage, circuit destruction, edr union deformation, entry of foreign matters, moisture, alteration or tearing of sealing labels on products, and any other visible man-made damage, and other conditions, such as the user's own reasons (unauthorized disassembly and modification, untrained use, improper operation, water ingress, etc.) Damage caused by force majeure, such as earthquake, flood, fire, typhoon or war.
